QUIET WORKMEN**

Mobs at Wilkesbarre and Scranton Assault Men on Way to Work.

**ONE MAN IS KILLED**

Party Was Composed of Three Italian Street Laborers.

**BEAT THE VICTIMS**

(Special By Scripps-Mellae.)  
Wilkesbarre, Pa., September 15.—A mob of strikers held up two non-union men on the workings of the Lackawanna this morning and shot one so that he will probably die. After he had fallen they kicked him and stamped upon him.

Tried to Run.  
When the two men were attacked they tried to run but were followed by the mob and one, John Gigano, was shot in the head and then jumped upon by his pursuers. He was taken to the hospital in a critical condition. His companion escaped injury and ran away to a place of safety being chased for several blocks.

Trouble at Scranton.  
Three Italian street laborers were set upon by a mob who mistook them for non-union men and it is reported that one was killed and the other two badly injured. The men were taken away by the mob and are hidden in the city.

RURAL OFFICE**

Pittsboro Post Office Is Entered by Burglars Last Night.

(Special To The Gazette.)  
Pittsboro, Sept. 15.—The postoffice was robbed last night and two hundred dollars' worth of stamps and some small change was taken.

**EXPLOSION SINKS A STEAMER**

Seven of the Crew Killed and Vessel Then Goes Down.

Las Palmas, Canary Islands, Sept. 15.—The British steamer Rydal Hall, Captain Curtis, from Liverpool for Port Natal, reports having seen the German bark Enterpe, Captain Kaufman, from Port Talbot, Wales, founder Sept. 8 in latitude 49.25 north, longitude 8.15 west. An explosion had occurred on board the Enterpe, killing seven of her crew and injuring several. The survivors of the Enterpe were landed here.

**WILL HAVE REAL  
PIONEER EXHIBIT**

St. Louis Exhibition Will Show Primitive Appalachian Conditions at Fair.

World's Fair, St. Louis, Sept. 15.—Far away from the railroads in the mountains of Kentucky and contiguous states there exists a people which knows little about modern civilization. Now and then a traveler searching for adventure, penetrates these wildernesses and brings back interesting narratives relating to these isolated mountaineers. A letter has been received at World's Fair headquarters from C. F. Hubbell of Louisville, who has just returned from the mountain country, and whose observations lead him to suggest that an exhibit be made at the World's Fair to show the social life and domestic industries of the Kentucky mountaineer as well as the mountaineers of the great Appalachian country in several adjoining states. He says: "One realizes indeed, that the most attractive study of man is man when moving about the primitive people in the Kentucky Cumberland mountains; they are still spinning wool and cotton of their own raising on the primitive spinning wheel, and wool carding, walnut drying of home-spun fabrics, etc., are being done by them as in the days of the Pilgrim fathers. I hazard nothing in saying that the most popular department in your whole exposition would be one in which these mountaineers in their native garb would move about their daily round of duties as now practiced in the mountains. An exhibit of their spinning wheels, looms, log school houses, bee gums, grave yards, home-made housekeeping utensils, hand mills, and the singing of their quaint and plaintive mountain ballads by mountain boys and girls,—in short, a reproduction of the actual life of the mountaineers by these people themselves in a department of your exposition would be intensely interesting to every visitor. The educational value would be very great and your sociological department would not be at all complete without some such department as I herein suggest."

Mrs. Archie Waterman  
The funeral of the late Mrs. Archie Waterman of Wausau was held Saturday afternoon at 2:30 from the chapel at Oak Hill cemetery. Rev. Richard M. Vaughan conducted the service. The pall bearers were E. N. Fredendall, E. F. Wilt, Frank George and Alfred Jones.

**MAKING READY  
FOR BIG RACE**

New York Yacht Club Is Laying Its Plans for Cup Defender.

New York, Sept. 15.—Special.—The members of the New York Yacht club, who are working for the successful defense of the America cup, are completing all their arrangements, and when the challenge from the Royal Ulster Yacht club on behalf of Sir Thomas Lipton is received the order for a new yacht will be placed with the Herreshoffs and work will begin at once on the yacht's construction. Herreshoff has been notified that a cup defender is wanted, and he is now making arrangements so that the new boat can be started as soon as possible after the challenge has been received and accepted.

Syndicate Formed  
A syndicate is to be formed to defray the cost of building and running the boat, and it is said that ex-Commodore E. D. Morgan, who last year had charge of the Columbia, is to head the syndicate and run the new boat. If Mr. Morgan will consent to do this yachtsmen will breathe easier. A member of the New York Yacht club talking of the defense of the cup said:

Lipton Dangerous  
"This time Sir Thomas Lipton is more dangerous than he ever was because of his experience in the two former races, and if we have to find new men to manage the boats they will be at a disadvantage, and it is for that reason that those members of the club—E. D. Morgan, W. H. Duncan, Jr., and a few others—who have been identified with the former races will take active parts in the coming races."

There has been some talk of Cornelius Vanderbilt having a cup defender built instead of a big schooner.

**FOREST FIRES  
STILL RAGING**

Oregon and Washington Swept with Flames Ever Increasing.

**THE LOSS OF LIFE**

Many Hunters Thought To Have Died in the Holocaust.

**WELCOME RAIN COMES**

(Special By Scripps-Mellae.)  
Tacoma, Sept. 15.—The forest fires in northwestern Oregon and southern Washington are raging with unabated fury and continue to destroy lives of people and small towns are being wiped out of existence. The flames are spreading.

Along Lewis River  
The greatest loss of life seems to be along the Lewis River, Washington, where the logging camps are the most numerous. Many persons are known to have perished thus far. Stories are told of persons hiding with wild animals in caves for hours to avoid the fire. Many campers are thought to have been perished.

Rain Coming  
Rain has begun falling in northwestern Oregon and it is thought that the flames will soon be extinguished. Smoke is noticed as far south as San Francisco in great quantities. The smoke it is expected will travel across the continent.

**LOST--A TWELVE  
INCH SHELL**

The Government Wants Its Whereabouts Very Badly, and Offers a Reward.

New York, Sept. 15.—(Special).—"Lost a twelve-inch isiam shell. Was last seen on Aug. 25, plowing its way into a sand butt on the Sandy Hook proving ground." This is an advertisement which appeared in the Daily News yesterday. The experts at Sandy Hook are mystified. On Aug. 25, an isiam shell, which is one of the most modern high explosive inventions, was fired without an explosive charge from one of the big guns. It was desired to test the durability of the steel structure of the shell when fired against a sand butt at a greatly increased pressure. The shell was fired and it struck and penetrated the sand butt. But the ordinance experts, after two weeks have passed, are yet without knowledge as to the effect on the shell itself. They cannot find the shell.

**PANAMA TITLE  
SAID TO BE VALID**

Attorney-General Knox Gives His Opinion of the Disputed Question.

Washington, D. C., Sept. 15.—(Special).—Attorney General Knox's brief stay in Paris, where he went to investigate the title to the Panama Canal property offered to the United States by the French company, is the chief bit of gossip among those public men here who are interested in or connected with the canal negotiations. The rumors that he found the title invalid and that that was the cause of his departure for the United States on Saturday, meet with no confirmation here. On the contrary the officials of the war department are inclined to believe that Mr. Knox found the title clear. Assistant Attorney General Russell went to Paris weeks ago to gather together all the threads of information. It was not expected by the officials here that Attorney General Knox would have to make a long stay in Paris.

**PRESIDENT HAS  
BIG RECEPTION**

Entertains His Fellow Citizens of Nashua County This Afternoon.

**A GALA DAY THERE**

Automobiles, Hay Wagons, Trains and Bicycles Used by Visitors.

**10,000 PEOPLE PRESENT**

(Special By Scripps-Mellae.)  
Oyster Bay, Sept. 15.—This is Oyster Bay's gala day. The citizens of Nashua county are this afternoon given a reception by the president at Sagamore hill home, the party continuing this evening also as well.

Come in Wagons  
Hay wagons, automobiles, trains, bicycles, old fashioned gigs and riding horses are bringing the visitors from all parts of the county. The drive-way from the city to Sagamore Hill is one mass of hunting its entire route. Every hundred feet there are American flags suspended across the road.

Thousands Present  
Ten thousand persons are reported to be present already and every minute increases the crowd. Every visitor is given a glass of lemonade, retaining the glass as a souvenir of the day. Strict guard is being kept over all.

**NATION EDUCATES  
CHILDREN WELL**

Reports Show That All States Show a Decided Increase in Learning.

Washington, D. C., Sept. 15.—(Special).—During the last decade there has been a healthy increase in the number of children between the ages of 10 and 14 years who are able to read and write. Every state and territory, except Nevada and Arizona, show increase. Every ten years the census bureau reports the number of persons able to read and write in any language. These figures throw light upon the extent to which the rudiments of education are being acquired and so upon the working school systems.

A large amount of illiteracy among adults indicates that they were reared under an imperfect school system, but neither illiteracy among immigrants nor illiteracy among elderly natives of the country is any index of the present condition of American schools.

**MONEY IS VERY  
HARD TO RAISE**

Committee Is Not Able to Secure the Required Bonus Thus Far.

The subscription committee of the Hough-Porcia Shade company have been working hard the last two days to secure the amount required by the company for moving their plant to this city. Their success has not been the best although they have raised a fair sum in addition to what they already had. They had a little more than half of the required \$4,000 and something will have to be done if the citizens of Janesville care to have the factory locate in this city.

Can't Find Subscribers  
The committee in some cases have been unable to find the parties that have been relied upon for a liberal donation at home and for this reason the list has not grown as rapidly as was expected. The canvass for funds however will be kept up until Tuesday night and the committee are confident that by that time they will have a good sized subscription.

The Hough-Porcia Shade Co. is a first class concern and should not under any consideration be allowed to go away from Janesville. Tomorrow night however will tell the story whether enough money can be secured to bring the company here.

**REPORT IS MADE  
OF LAKE TRADE**

Phenomenal Business Activity Is Well Illustrated by the Lake Commerce.

Washington, D. C., Sept. 15.—(Special).—The phenomenal business activity of the whole country is illustrated by the commerce on the great lakes during the month of July and the seven months ending with July. The chain of great lakes which stretches from New York at the east to Minnesota at the west transports a large proportion of the products of a dozen states, in which are included the principal agricultural, mining and forestry sections of the country. The measurement of the commerce of the lakes, therefore is an important exponent of the business activities of the country.

Total Freight  
The total freight receipts at 144 receiving ports on the lakes were 25,718,826 net tons in the first seven months of the year, compared with 18,391,267 net tons in the corresponding months of last year. This increase is at the rate of 39.6 per cent over the received tonnage of last season. Shipments thus far this season have amounted to 25,876,006 net tons. The most conspicuous gains have been made in the shipment of ore and minerals not including coal, this season's total amounting to 13,377,912 gross tons, against only 9,083,982 gross tons in 1901, a gain of 47.3 per cent. Coal shipments increased from 3,670,871 net tons last season to 4,652,323 gross tons in 1901, a gain of 47.3 per cent. Coal shipments increased from 3,670,871 net tons last season to 4,652,323 gross tons in 1901, a gain of 47.3 per cent. Five ports—Chicago, Milwaukee, Duluth, Cleveland and Buffalo—each show clearances of 2,000,000 tons and over.

ARE DEFEATED**

Minister Hart Cables the State Department That Interior War is Over.

**NOW AT ISTHMUS**

Ten Thousand Troops Are in the Field, and More Coming.

**THE END IS IN SIGHT**

(Special By Scripps-Mellae.)  
Washington, D. C., Sept. 15.—The American minister to Colombia, Hart, this morning cabled the State Department that the revolution in the interior of that state was over and the rebels quelled into complete submission.

Now Easy Work  
This will release many thousand of the government troops and will enable them to go to the Isthmus for service there in putting down that portion of the trouble. Already ten thousand well equipped soldiers have taken the field at the Isthmus and with the additional forces it will soon end the fighting.

Rebels Fleeing  
The report also comes that the rebels have suffered several telling blows in the past two days and that the backbone of the trouble is now entirely broken, only a few small bands remaining in arms at present.

GOVERNMENT IS  
READY TO REPORT

Secretary of Agriculture Wilson Plans His Report—Improvement in Tobacco Plants.

Washington, Sept. 15.—Special.—"What may be considered an important step in agriculture is the development of a fine tobacco filler," said Secretary of Agriculture Wilson today. "Several years ago the department began its work in the tobacco industry by endeavoring to develop a wrapper tobacco of the finest quality. At the Paris exposition this wrapper tobacco took the gold medal on account of its fine, silky quality and light weight. We showed twenty-five leaves to the pound more than any other wrapper tobacco produced."

On Fillers.  
"It is just as well that our filler experiments are developing rapidly, as the department experiences great difficulty in keeping its experts in this line. Just as soon as the wrapper tobacco had been developed commerce bid so high for the department's experts who had developed it that they immediately left the government service. This undoubtedly will be the case in the filler line."

The Experiments.  
"We are making these experiments in Ohio and Texas. In the development of the filler tobacco attention only is paid to the aroma. This aroma is often found in Havana tobacco, but not always. The people of the Caribbean sea follow the tobacco industry exactly as their grandfathers did. They know what was done to the crop then, and they do the same now. However, the raising of a single crop year after year on the same land is bound to result in the deterioration of that crop. This is the explanation of why the quality of Havana tobacco does not run equally, and why much of it has deteriorated within the last few years."

## WELCOME GIVEN FRANCIS MURPHY

TEMPERANCE APOSTLE ADDRESS-  
ES TWO IMMENSE AUDIENCES.

### FRIENDS GIVE HIM AN OVATION

Many Touching Incidents in Connection with the Characteristic Murphy Meetings.

Royal, indeed, was the welcome extended Francis Murphy, the greatest temperance leader the world has ever known, yesterday on the occasion of his second visit to this city. Nearly four years ago he came to Janesville under the auspices of the Congregational, Baptist, Methodist and Presbyterian churches. Yesterday he was here as the guest of the Francis Murphy Temperance League, an organization which was the direct result of his first visit and which in a quiet and unostentatious way has accomplished more practical good and has given the city more good citizens and industrious workmen in place of drunkards and loafers than any one outside of the leading workers in the league realizes.

**Two Great Services**  
Two immense meetings were held yesterday, the open meetings of the Francis Murphy League being held at the Y. M. C. A. building at three o'clock in the afternoon, while in the evening the five churches which were instrumental in bringing Mr. Murphy to Janesville joined in a union service at the Congregational church. Both auditoriums were packed to their capacity and at last evening's service many were unable to gain admission.

**League in Charge**  
A. E. Matheson, president of the Francis Murphy League presided at both services. The music for the evening service was especially fine and included an anthem by the large chorus choir of the Congregational church, with Mrs. F. F. Lewis at the organ, and a selection by the male quartet, including J. C. Kline, E. E. Van Pool, H. E. Cary and Archie Crawford. The quartet also sang in the afternoon and the Y. M. C. A. orchestra furnished the accompaniment for the congregational singing which was led by Archie Crawford.

**Splendid Service**  
At the evening service the Rev. J. T. Henderson read, as the Scripture lesson, the thirteenth chapter of First Corinthians, in which Paul exhorts the people to have charity, this chapter being the one which was read by Mr. Murphy in this city four years ago. The eloquent prayer was offered by the Rev. Robert C. Denison.

**Principles of the League**  
Before introducing the speaker of the evening, Mr. Matheson stated the following three facts: The Francis Murphy Temperance League bears no malice toward any individual. It is a practical association and its officers stand ready to help financially any one who is in poverty and distress on the one condition that the man is willing to help himself. It emphasizes the spiritual side of man's nature, advocating temperance reform through the power of God.

**Given An Ovation**  
Mr. Matheson then turned the meeting over to the white haired, youthful faced man who had been the central figure for all eyes during the entire service. As the familiar form stepped to the front of the pulpit platform and the kindly eyes smiled their greeting, while the veteran in the warfare against the evil of strong drink bowed repeatedly to the magnificent audience which faced him, he was greeted by a perfect storm of applause which told him that absence had not severed the ties which bind him to the people of this city.

**He Reaches Hearts**  
By some magic power, Francis Murphy holds the key to the heart of humanity. His is the marvelous ability to move to music, chords of tender emotions which in the majority of instances are neglected in the stress of business and social life and lie silent and unresponsive. People listen to him, not with their intellects but with their hearts because he speaks in the language which the heart best understands, the language of love.

**Gospel of Love**  
Therein lies the secret of the glorious success which has crowned his efforts for the redemption of humanity. The gospel which he preaches is the gospel of love and his preaching is effective because he himself is the living embodiment of his gospel. His great heart is filled with love and the grace of God. That is the reason why one who has ever known Francis Murphy never fails to remember him as a friend and that is why all over this country and in many foreign lands his name is honored and blessed.

**Peculiar Methods**  
There is but one Francis Murphy. He is a man peculiar to himself and he conducts a meeting in his own characteristic way. Probably no other man could follow the same plan and meet with any kind of success. In fact he has no plan. His addresses are never connected, never logically arranged. He rambles delightfully among his wealth of thoughts, passing abruptly from humor to pathos and following funny stories with verses of Scripture and deep, immortal truths. He uses freely dramatic action and burlesque which would be disgustingly styled cheap theatricals in another speaker and he introduces personalities which would be resented were they spoken in any other voice than Francis Murphy's.

To give a synopsis of either address is an impossibility owing to his characteristic manner of mixing incidents and reminiscences with his messages of love and inspiration. The keynote of both his talks was love of Christ and tender sympathetic, heart-to-heart love of each other in all the relations of life. Both talks were filled with unique epigrams, among them being the following:

**Pointed Truths**  
"Men and women always grow handsome when they live good lives."  
"We are too apt to think we are smart"

and cute because of our ability to shoot splinters into people." "Love is the only thing that will settle whiskey, the only thing that will settle strikes, the only thing that teaches a man to be civil and decent to his wife." "Men who want to fish must cut the kind of bait the fish like, not the kind they themselves like." "Before you whip your boy send for the photographer and then show the picture he takes to the neighbors." "Have your home filled with love, store it in the cellar and when you cut it off, cut it off in great chunks." "Be lovers; life is too short to have quarrels." "Have common sense and common sense is very uncommon sense." "Stop criticizing the ministers and the churches and do a little something yourself." "Men who sell liquor are as decent as their customers." "The cure for the whiskey habit is prayer."

**An Affecting Meeting**  
One of the most dramatic scenes ever witnessed in a local church occurred when Mr. Murphy stopped abruptly in his address and called for "Johnny Jones." Mr. Jones signed the pledge at the Murphy meetings four years ago and when Mr. Murphy left the city the two men promised each other that the next time they took a drink it would be together. As Mr. Jones said in the afternoon meeting, that drink has yet to be taken. As the two men stood on the platform, clasping hands and looking proudly and fondly at each other, it was an affecting sight and there were not many dry eyes in the great audience.

**The League's Work**  
Mr. Jones made a few brief remarks saying that in the last four years, through the efforts of the League, nearly two thousand people in this city had signed the pledge. Words of gratefulness for the movement and for the inspiration and influence of Francis Murphy were also spoken by Revs. Vaughan, Henderson and Denison and by George West.

**Gifted Son Speaks**  
William Murphy of Whitewater, who accompanied his father to this city, paid handsome tribute to Francis Murphy as a father and made an eloquent appeal for the temperance movement which he represents. The younger Mr. Murphy is a fluent, forceful and entertaining speaker and he made some excellent remarks at the afternoon meeting. He spoke especially of the value which the movement had been to the city by restoring some of its best business men to lives of usefulness.

**Other Speakers**  
At the afternoon rally of the League, Francis Murphy insisted on hearing from some of those who are identified with him in this great work. He called on them by name and excellent remarks were made by Revs. Harrington, Henderson, Denison and Vaughan. Dr. James Mills, J. C. Kline, J. H. Jones, Al Smith, Fred Holden, W. Peters and George West. Dr. Mills also read an interesting letter of greeting from the Rev. E. H. Pence of Detroit.

**Left This Morning**  
After both services the distinguished visitors were given an informal reception, many friends improving the opportunity of shaking hands and exchanging a word of personal greeting. Mr. Murphy and his son returned to Whitewater this morning at 10:30 o'clock on and Wednesday the elder Mr. Murphy leaves for Los Angeles, Cal., where he and his wife will spend the winter.

## ARRESTED DRUNKS AND FEMALE TRAMP

Judge Fifield Deals with a Trio of  
Evottees of the Flowing  
Bowl.

The police had a trio of drunks before Judge Fifield Saturday afternoon that they had picked up on the streets the night before.

James Welch, who gave his home as Belvidere, was given three days in jail and a fine of \$2 and costs or four additional days. Charles Roberts had been working near Emerald Grove and came to town to spend his wages. The judge gave him five days in jail and a fine of \$3 and costs or six additional days.

Michael Collins was the third. He had been working for Walter Little near Leyden and on his promise to leave town at once he was assessed \$1 and costs, in all \$2.20 which he paid and was turned loose.

**A Woman Tramp.**  
Friday night officers Fanning and Brown picked up a female tramp who had been around the city for a couple of days and placed her in the lockup. She gave her name as Marie Burns, and said she was from New York, but later from Lake Geneva. She appeared to be a little off in the upper story, so the officers placed her on a train Saturday morning and sent her to Harvard.

**Over-emphasis of one's own merits**  
and the advantages of one's own ways is bad enough, being likely to breed suspicion, but the detraction of the other fellow's commodity is worse, inevitably proving a boomerang at the end.—Mahl's Magazine for August.

**Entertained Lady Friends:** A pleasant gathering of neighbors and friends was held Saturday afternoon at the home of Miss Susan W. Parker on Prospect Avenue. The house was handsomely decorated with cut flowers and plants and was very attractive. The time was spent in social conversation and enjoying the choice refreshments that were served by the hostess.

Misses Laura and Louise Roessling left today for Sauk county and will spend some time visiting relatives and friends.

## HAVE FINISHED WORK HERE

DR. BONSTEEL COMPLETED HIS  
REPORT ON THE SOILS.

### WILL BE READY NEXT YEAR

Report Touches on the Conditions,  
Transportation, and All Faci-  
lities in This Section.

When Dr. Jay Bonsteel on Wednesday next completes his report for publication at Washington the soil survey of this section of the state will have been completed. His assistant, Prof. Failyer, has already departed for his next field of work and Dr. Bonsteel will leave next Thursday.

**Large Field Covered**  
These two gentlemen, members of the Bureau of Soils, Department of Agriculture, Washington, have been in the field since July 1st, making their successive headquarters at Janesville, Beloit, Evansville and Stoughton. In the course of this time an area of 440 square miles has been accurately mapped, indicating the different soil types which exist. Samples of earth have been sent to Washington for expert analysis, and the results of the chemist's work will be embodied in the reports.

**Through Many Townships**  
The exact area covered in the soil survey includes the following townships: Plymouth, Newark, Clinton, Rock, Janesville, Fulton, Porter, Albion, Dunkirk, Christiana, Pleasant Spring and the cities of Beloit, Stoughton, Edgerton and Janesville.

Dr. Bonsteel and Prof. Failyer have already been assigned to their new fields, the former going to Los Angeles and then to San Diego, Cal., while his co-worker will go to Panama, North Carolina, to enter on their duties immediately. This will be the first time in the history of the bureau of soils that parties have been kept in the field through the winter. Heretofore all members of the bureau have been assigned to survey work for nine months of the year and have spent the remainder of the time in Washington, D. C. The three parties which will conduct the soil surveys during the oncoming winter months will operate in California, Alabama and Florida and North Carolina.

**Preparing Report**  
Dr. Bonsteel already has a major portion of his report ready to submit to his chief, Prof. Milton Whitney, and will complete the work in two more days. In a general way a definite outline will be observed in the report, according to a set form.

**Contents of Report**  
An introductory chapter will define the area to be dealt with, after which a survey of the climate will follow. This latter will not be the result of the recent investigations but will be taken direct from the weather bureau.

Next will follow an account of the physical features of the area, its geography and geology. Especial stress will be laid on the topography of the land and its formation, together with the origin of the soil types from a geological standpoint. After this will come a description of each soil type accompanied by its analysis, the latter being furnished by the chemists at the Washington headquarters.

**Touches On Tobacco**  
Space will be reserved for a rapid treatment of the development of the tobacco industry, as it exists in this area. The observations of W. A. Cobey, the government expert, who has been in charge of the harvesting of the local shade grown crops will be added in this connection. The fact that the crop will not be cured for some time will necessarily limit the detail of this section.

**Other Features**  
The report will be concluded by a chapter on the agricultural history and development of the area. In this connection will be mentioned the facilities for transportation and other economic agricultural features. The entire work will be completed ready for free distribution through the usual channels in about one year from the present date, although Dr. Bonsteel's part in the work will end Wednesday. A number of maps showing the location of the soil types will accompany the volume as well as some cuts from photographs which were made by Prof. Failyer. The latter admirably illustrate the features of the area and especially of the tobacco industry at its different stages.

**Ten Soil Types**  
In commenting on his observations Dr. Bonsteel said that he had found ten main soil types, four of which were of special importance from the standpoint of the soil surveyor. The item which he found most worthy of mention was the manner in which the agricultural industries of the area are carried on. They are largely allied with dairy farming and are conducted in such a way that the soil is built up in fertility and productivity, rather than worn out.

**Special Opportunities**  
As a result of his investigations the expert spoke of favorably of the opportunities offered for development along special lines, such as the cultivation of the sugar beet, tobacco and canning produce. There are a variety of soils which would justify much further development along the last line. He remarked in conclusion that the work would probably be continued next year in Vernon and Columbia counties.

**A Dry Joint**  
Dry Joints. That's what is the matter with nine tenths of the people who think they have rheumatism. Simply a sluggishness on the part of the synovial sac which secretes the joint water. It is a lazy doctor who calls every case of joint trouble, rheumatism. He is too lazy to make a diagnosis, or else too ignorant to do so.

A dry joint wants lubricating: That is all. In order to lubricate it, it is only necessary to stimulate the sac which nature has provided for this purpose. If you can't stimulate it yourself go to an osteopath.

The osteopath likes to find just such a case as this that has passed through the hands of several dry doctors, to

demonstrate the superiority of his treatment. The osteopath wants no better fun than to cure a case of dry joints, because he knows exactly how to go about it. He knows what he is trying to do.

**A Society of Majors.**  
"The Battleground," which Hamilton W. Mable says is the best novel of the South before the war ever written, is not a novel without a titled hero. What a lady of the book thinks of such a novel is characteristic of Miss Glasgow's humor: "None of your new-fangled writers for me, my dear," she would protest, snapping her fingers at literature. "Why, they haven't enough sentiment to give their hero a title—and an untitled hero! I declare, I'd as lief have a plain heroine; and before you know it they will be writing about their Sukey Sues, with pug noses, who eloped with their 18th Bats from the nearest butcher shop. Ugh! don't talk to me about them! I opened one of Mr. Dickens' stories the other day and it was actually about a chimney-sweep—a common chimney-sweep from a workhouse! Why, I really felt as though I had been keeping low society."

**The Limited and Luxury,**

**OBSERVED THEIR  
SILVER WEDDING**  
Mr. and Mrs. C. C. Hoague, of Porter, Entertain Friends on Their Anniversary.

Mr. and Mrs. C. C. Hoague of the town of Porter, celebrated their twenty-fifth wedding anniversary on last Friday. At three o'clock a company of fifty relatives and friends gathered at the pleasant home of the host and hostess and several hours were enjoyably spent. An elaborate wedding supper was served in faultless manner. The host and hostess were the recipients of many handsome and useful presents, appropriate souvenirs of the occasion and tokens of the friendship and esteem of their guests. They were also presented with an abundance of choice cut flowers.

Among the guests from a distance were Elder C. H. Burr, of Plano, Ill., Mrs. Philip Rogers and son, of Manteno, Ill., Mr. and Mrs. W. P. Robinson, of Oregon; Mrs. Henry Sperry and daughter of North Johnston; Mrs. Frank Gibbs, Mrs. L. A. Libby and son, Mr. and Mrs. A. F. Gibbs and Mrs. Ella Douse, of Evansville; Mr. Hadley of Beloit, and S. K. Foye of Cresco, Ia.

## How About Your Heart

Feel your pulse a few minutes. Is it regular? Are you short of breath, after slight exertion as going up stairs, sweeping, walking, etc? Do you have pain in left breast, side or between shoulder blades, choking sensations, fainting or smothering spells, inability to lie on left side? If you have any of these symptoms you certainly have a weak heart, and should immediately take

### Dr. Miles' Heart Cure

Mr. F. H. Oaks of Jamestown, N. Y., whose genial face appears above, says: "Excessive use of tobacco seriously affected my heart. I suffered severe pains about the heart, and in the left shoulder and side; while the palpitation would awaken me from my sleep. I began taking Dr. Miles' Heart Cure and soon found permanent relief."

## AFRICA AS A MARKET.

The importance of Africa as a field for the producers and manufacturers of the United States is illustrated by some figures just received by the Treasury Bureau of Statistics showing the commerce of the United Kingdom with Africa. Considerable pride has been felt in the fact that the exports from the United States to Africa have grown to \$23,000,000 in the fiscal year 1902, but a comparison of these figures with those of the exports from the United Kingdom to that continent shows that our exports to Africa still form a very small proportion of the importations of the Dark Continent. The total exports from the United Kingdom to Africa, according to figures received by the Treasury Bureau of Statistics, were in 1901, \$157,000,000, or practically five times as much as the exports from the United States to Africa. While the growth of exports from the United Kingdom to Africa has not been so rapid as in the case of the United States it has been steady and persistent. In 1897 the total exports from the United Kingdom to Africa amounted to \$120,000,000; in 1900, \$134,000,000; and in 1901, \$157,000,000. Of this exportation of more than \$150,000,000 worth of merchandise to Africa, two-thirds goes to the southern part of the continent; the figures being to Cape Colony, \$62,700,000; to Natal, \$29,500,000; and to Portuguese Africa, chiefly that section located on the southeastern front of the continent and forming the most direct entrance to the territory of the late Boer republics, \$6,020,000. The next section in importance is Egypt, to which the exports of the United Kingdom are \$31,238,000; next, British West Africa, \$13,222,000.

An analysis of this market for over \$150,000,000 worth of British products shows that the chief exports to Cape Colony consist of cotton piece goods, iron (wrought and unwrought), coal, provisions of all sorts, and manufactured articles, especially apparel and haberdashery. To Natal the exports are similar to those to Cape Colony, with the exception of coal of which a considerable quantity is produced in Natal itself. To Portuguese Africa the shipments included cotton goods, machinery and other supplies, chiefly for the Transvaal and Orange River colonies. To British West Africa, cotton goods, coal and iron are the most important articles exported. To Egypt the exportations included cotton goods to the value of \$1,086,000; coal, \$8,325,000; iron wrought and unwrought, \$1,630,000; and machinery, including steam engines, \$1,935,000.

The trade of Transvaal seems likely to prove an important factor, especially in view of the present and prospective enlargement of the gold mining operations. For the five months ending with May they amounted to \$16,925,000, against \$4,185,000 in the corresponding months of last year. Among the more important articles exported from the United Kingdom to the Transvaal in the five months ending with May are metals and manufactures, including agricultural implements, \$3,956,000; apparel and haberdashery, etc., \$2,623,000; provisions, exclusive of corn and dairy products, \$2,365,000; corn and grain, including flour, meal and rice, \$944,000; leather and manufactures, including saddlery, boots and shoes, \$812,000; dairy products, \$720,000; drugs and chemicals, \$642,000; beverages, including ale, spirits, and mineral waters, \$618,000; wool and manufactures, \$574,000. To the Orange River Colony the exports are much less, the figures for the first quarter of 1902 being \$1,771,000, against \$435,000 in the corresponding quarter of the preceding year.

Cotton piece goods alone form a very important feature of British exports to Africa. In 1897 they amounted to \$23,763,000, and in 1901 to \$30,022,000. Of the total \$11,300,000 went to Egypt; \$6,053,000 to Cape Colony and Natal; \$4,672,000 to British West Africa; \$3,022,000 to French Africa; and \$2,876,000 to Morocco. The following table shows the to-

tal value of exports to Africa from the United States and United Kingdom, respectively in each calendar year from 1897 to 1901:

Year	Un't'd States	Un't'd Kingdom
1897	16,679,427	120,674,000
1898	18,111,470	118,250,000
1899	18,602,394	119,521,000
1900	22,979,170	134,563,000
1901	29,652,093	157,130,000

## A THORN IN THE FLESH.

That Bryan continues to be a thorn in the flesh of democracy is very evident. His "Commoner" assumes to be the oracle for the free silver wing of the party, and while the editor claims that he is not aspiring to the nomination of president in 1904, he proposes to be a controlling factor in the convention. The democrats of Ohio are commended for loyalty, and Tom Johnson, their erratic candidate for governor, is still strongly endorsed as the friend of the oppressed and the enemy of corporations.

Mr. Bryan deprecates conditions in Iowa and Wisconsin, and is deeply impressed with La Follette as a reformer. He advises his friends to support him as he has no use for Rose or the democratic state platform. If the democratic party imagines that Bryanism is dead or in a dying condition, it is very much mistaken. It is not only very much alive, but ready to form alliances with anything that professes reform or revolution.

Bryanism is a menace to the country today. It is not confined to the democratic party, but is making inroads in the ranks of republicanism, and unless the danger is appreciated and checked, it will result in undermining the party as effectually as it has democracy. Radical and theoretical reform in any state is a menace to stable government, and there has never been a time in the history of the nation when this sort of an epidemic was so threatening. In former years the country has been annoyed by greenbackism, prohibition and populism, but they were never regarded dangerous, because they were so visionary, but Bryanism struck a popular chord because it promised cheap money, and plenty of it.

The delusion was so captivating that it captured 6,000,000 votes, and hopelessly demoralized a great political party. Many republicans were in sympathy with the movement, and Bryanism, under various titles has a large and enthusiastic following today. Any ism that appeals to the masses and encourages class distinction and class hatred, never lacks supporters, and prosperous times are favorable to the development of this sort of fanaticism. People forget that the common lot of humanity is toil, and they like to be told that their condition in life is hard and unjust, and that wealth is not fairly distributed. They are ready to endorse leaders who promise a remedy for all imaginary or real grievances, and there are more people chasing will-o-the-wisps of this class today, than ever before.

Tom Johnson may be elected governor of Ohio, but if he is it will be by disgruntled republicans, infatuated by Johnsonism. La Follette will be elected governor of Wisconsin, but his majority will be made up of dissatisfied democrats. Bryanism is alive in both Ohio and Wisconsin, and it is far from dead in Iowa and many other states. It will continue to be a thorn in the flesh until it runs its course unless checked by conservative men of both parties in the interests of safe government.

The North-Western road is making arrangements for a special train to carry the Wisconsin veterans to the National encampment at Washington. In 1861 these self-same boys went to the front in one old sort of a train. Now the North-Western is looking for one of its latest modeled and equipped trains to carry them to one of the last meetings of the grandest army the world has ever seen.

Venice is to have a new Campanile after all and the corner stone is to be laid with great pomp and ceremony soon. It will be a most up-to-date campanile and when the whole building is up it is to be dedicated with a grand ball. Think of it. Twentieth century architects trying to improve on those of centuries back.

While Senator Spooner is under obligations to Wisconsin republicans, he is under no obligation to La Follette or La Follettism. The men who had the audacity to question his loyalty in the convention, have no claims upon him, and the party so understand it.

Mr. Stratton of Plymouth, the republican who presented Mayor Rose with fifty American Beauty roses, representing that many republican votes, is denounced by Col. Hicks or Oshkosh as a donkey. Mr. Stratton replies that he may be a donkey, but he don't bray like an ass.

Despite Chancellor Andrews of Nebraska democracy has passed the crisis some time ago and it is now on their pierside of the controversy with no immediate hopes of recovery although Bryan is trying his best to kill her.

"Teddie" Junior is back from his hunting trip and the country breathes easier. He is a strenuous young sportsman, and is already ambitious to try his hand on bigger game.

Grand juries are wholesome organi-

zations. St. Louis succeeded in unearthing the most corrupt gang that ever infested a city. There are smaller towns in the country where the work of a grand jury would not come amiss.

The outlook for Janesville was never more encouraging, and if every citizen lends a hand there is no reason why the population may not be doubled in ten years. If you can't push, don't kick.

Republicans who shirk responsibility this year should remember that congressmen and legislators are to be elected and every vote will be needed.

The price of cattle is declining but the price of meat is just as high. When the packers have that trust formed it looks as though the price of meat will not change any even though the price of cattle does.

It is said that a large fleet of coal vessels is on its way from Europe to this country. It has been many a day since Europe furnished America with coal.

Some one ought to suggest to Mr. Bryan to try some other sort of exercise than running. That is too exhaustive for a man of his age and size.

Senator Clark has been beaten at his own game in Montana. Maybe now the western senator will retrench for a while.

Even though Editor Waterson says Grover is a sorry sort of a democrat he is the only one that party has been able to elect since 1856.

Colonel Henry Waterson is composing another attack on the Four Hundred and the Four Hundred are trembling. Are they?

Chicago papers have found Bartholomew and now they have Luke Wheeler. Who will they want next?

With coal at ten dollars and none in sight, hot air will be in good demand.

Will the republicans attend the picking of the Rose this fall?

Senator Billy Mason of Illinois dies hard.

## JUSTICE COURTS HAVE MANY CASES

The Egan-Kleib Suit Has Been Continued Until Next Monday.

In Jesse Earle's justice court this morning the case of George C. McLean against James Scott, William Hadden and Thomas Mouatt was adjourned without pleadings to September 22.

Mrs. Catherine Egan and Edward Kleib appeared in Justice Reeder's court through their attorneys, Ralph W. Adair for the plaintiff and Fethers, Jeffries & Mouatt for the defendant. Complaint was filed by the plaintiff and the case was adjourned for trial until September 2.

According to the complaint Mr. Kleib "maliciously injured and without provocation attacked" property at 456 and 458 South Jackson street which belongs to the plaintiff. She demands twenty-five dollars as a just remuneration for the damage which has been done. She stated, however, that her purpose was not so much to exact the money as to convict the defendant, so that suit may be entered upon in the municipal court on criminal grounds. Each allegation was denied by Mr. Kleib.

F. C. Grant is at Jefferson to report the cases tried in the circuit court.

## MISS BUTT WITH OTIS SKINNER

SISTER OF A TEACHER AT THE STATE INSTITUTE.

IS DOING ADMIRABLE WORK

Mr. and Mrs. Skinner Talk Entertainingly of the Characters in "Lazarre."

Mr. and Mrs. Otis Skinner arrived in the city this morning on the 11:45 train, having spent Sunday in Chicago. With a part of the company they are registered at the Grand hotel and the members of the company spent a very busy day. As soon as he arrived in the city Mr. Skinner began getting things in readiness for a brief rehearsal this afternoon.

Both Mr. and Mrs. Skinner were seen for a few minutes by a Gazette representative and both are as charming to meet in a personal way as they are on the stage.

The public will be especially glad to welcome Mrs. Skinner, or Maud Durbin as she is professionally known, back to the stage. She is a graceful, refined little woman with a cordial manner and a clinging hand clasp. Her beauty of face is of the fragile, delicate type, an indescribable charm resting in her clear eyes, which meet one frankly and in her exquisitely modulated voice with its perfect enunciation and pretty accent.

She plays "Eagle" When questioned concerning her part in "Lazarre," which is to be presented at the Myers Grand this evening, Mrs. Skinner said "I play 'Eagle,' opposite to Mr. Skinner's 'Lazarre.' It is the leading sympathetic part but the role of 'Annabel,' played by Miss Nanette Comstock, is equally as important and more showy. After these two feminine parts come two more of equal strength, one played by Miss Wilson and the other by Miss Jane Butt, who plays 'Ernestine.' Miss Butt was a university girl and the story of her joining the company is very interesting. You must hear it from her. She is doing admirable work, how admirable you can judge for yourself tonight."

A Wisconsin Girl Miss Butt is a daughter of Col. Butt of Viroqua, and left the University of Wisconsin to go on the stage much against the wishes of her relatives. She is a sister of Miss Butt, one of the instructors at the state school for the blind and was entertained by her sister during her stay in Janesville.

An Emotional Part "Is Mr. Skinner's part different than anything he has ever played before? To an actor who has played so many characters, nothing can be totally different, but Mr. Skinner certainly never played anything so semi-civilized as 'Lazarre' in the first act. In fact I doubt if any character has ever been created which runs the gamut of emotions as does 'Lazarre.'"

Mr. Skinner's Opinion In speaking of the correct spelling of the name of the historical character around whom tonight's play centers, Mr. Skinner himself said: "It is impossible to tell. There are many ways including Lazarre, Lazare, Lazue and others. The spelling is as indefinite as the man himself was." Mrs. Skinner was of the opinion that Mrs. Catherwood, the writer of the novel, chose the form "Lazarre" because it is more euphonious than the others. "It is a beautiful word and full of character," said Mrs. Skinner.

## BASS CREEK TEAM BADLY BEATEN

Clinton Maroons Trim Their Penions by a Very Neat Score.

The ball game yesterday at Bleasdale's park near Hanover between the Clinton Maroons and the Bass Creek team attracted about four hundred people. The Bass Creek team ran up against a snag this time and found that they had a harder proposition to go against than the Janesville team has been. The Maroons were in good shape and played first class ball. The score at the end of 9th inning was 9 to 6 in favor of Clinton. The battery for the Maroons was Young and Frye and Farmer and Newman for the Bass Creeks. The Clinton team has won a number of victories this year and has taken into camp such teams as the Milwaukee Sentinels, Milwaukee Journals, Oskosh, Rockford, Milton and Appleton. The Bass Creek boys gave them a good game and have nothing to be ashamed of in their defeat.

We, the undersigned butchers of the city of Janesville do hereby agree to close our places of business every evening at 6:30 except Wednesday and Saturday evenings. Beginning the first Monday in October, 1902, until further notice.

Entertained at Cards: Miss Minnie Jones entertained a company of eighty lady friends most hospitably last Saturday afternoon. Some time was enjoyably spent at cards, Mrs. J. P. Thorne winning the lucky number prize. The home was prettily decorated with flowers and an elaborate luncheon was served. Mrs. Charles Cummings, of Beloit, sister of the hostess, was one of the guests.

Injured His Foot: While at work with the C. & N. W. bridge gang on the culvert on the Evansville cut off, Matt Johnson of this city, dropped a rubble box on his right foot, smashing his great toe. He will be laid up for several days, the injury being painful, but not serious.

## FINE HORSES FROM SCOTLAND ARRIVE

ALEXANDER GALBRAITH IMPORTS THIRTY-SIX ANIMALS.

TWO DIED EN ROUTE HERE

Finest Herd That Has Ever Been Imported From the Land of Thistles.

What has been pronounced by experts to be the finest lot of horses that has been shipped from Scotland in fifteen years, was received in this city for Alex. Galbraith at midnight last night. The importation, which had been selected personally by Mr. Galbraith, included originally thirty-eight horses, but an unfortunate delay in transportation caused the death of two.

Noted Prize Winners Included in the shipment were two Clydesdale breeding mares, twenty-one Clydesdale stallions, two Hackney stallions, and eight Suffolk punches. Besides these there were three Clydesdale colts for harness and Brown of Waukegan, and two for N. P. Clark of St. Cloud, Minnesota. The Clydesdales in the shipment are of an unusually high order of merit.

The two mares, Princess Alice and Lady Lee, have been prize winners at Edinburgh, Glasgow, Galashiels, Kirkcaldy and Castle Douglas. Lord Polwarth bred Princess Alice, and in his hands she distinguished herself both in the show ring and in the breeding paddock.

They present a noble appearance as a team, and are counted upon to make more than a little sensation at the Chicago show in December. The remainder of the show is made up of colts and horses whose records are equally distinguished, and who are expected to maintain Mr. Galbraith's high standing as an importer of fine horses.

Shipped From Glasgow On August 30, the party in charge of the shipment left Glasgow on the Donaldson liner, Lakonia, and last Thursday the horses were landed in Montreal. A delay on the railroad made it impossible to give two of the horses, a Hackney and a Clydesdale proper medical treatment, and they died before arriving in this city. Four others were slightly ailing, but they are expected to recover soon.

Large Party There was a large number of persons who made up the party on the same boat, which brought over the shipment. Mr. and Mrs. Galbraith, their two daughters and their youngest son, were on board and with them, T. W. Wallace of Morpeth, Northumberland. The latter is now in this city, but will return to his home at an early date to take up his work as governor of the reformatory at Morpeth. John Smith was in charge of the horses during the trip, and was aided by three others. One of them is a nephew of James Gardner of this city, who has come over to this country to learn the horse-shoeing trade.

An Annual Shipment Last year Mr. Galbraith brought over a number of well built thick Clydesdales, with the typical feet and pasterns, which the horse lover fancies. They sold rapidly and it is expected that this year's selection will prove no less popular.

PLAN OCTOBER RACING MEET

It Will Be Held the First Week of Next Month at the Fair Grounds.

The Guard of Honor of St. Mary's church will give a two days race meeting in the city on October 1 and 2. The meeting coming just at the close of a number of fairs should attract a great many good horses.

There will be three races each day besides a match race between Aunt Laura 2:15½ and Nicholas, Jr., 2:14½, for a purse of \$250.

The Program. The program for the first day consists of the match race, a 2:28 trot and a 2:15 trot for \$250, and a running race for \$100.

Second Day. On the second day there will be a 2:30 pace, a 2:25 trot and a 2:40 trotting race for \$250. Also a 2:10 trot and a 2:12 pace for \$250.

All Day Picnic. The committee in charge are planning to make it an all day picnic. In the morning there will be athletic games of various kinds and a base ball game. The ladies of the church will serve a harvest dinner each day and possibly there will be a barbecue one of the days.

Want Speakers. The committee are also trying to get a political speaker for each day so that both parties can give the assemblage their side of the story. Coming as it does just after several county fairs and race meetings the meet should be a success.

BRIEF BITS OF LOCAL NEWS.

Shed Rebuilt: The coal shed at the pumping station of the Janesville Water company, destroyed by fire some time ago has been rebuilt and is now being filled with coal.

## CITY HALL IS DONE AT LAST

CONTRACTOR AND ARCHITECT LOOK IT OVER.

WILL COST NEARLY \$75,000

Building Committee Will Doubtless Recommend Its Acceptance by the Common Council.

James Rowson of Iowa City and A. W. Rush of Chicago arrived in the city Sunday night and went over the new city hall today with the building committee of the council. The last work was done on the building on Saturday afternoon and it is now ready for acceptance or rejection at the hands of the council.

Are Well Pleased Most of the committee seemed well pleased with the building and as they have made numerous inspections while the building was in course of construction they will no doubt recommend its acceptance at the meeting of the council this evening.

Committee Meets Chairman Lowell of the building committee and Oscar F. Nowlan, superintendent for the city met, Mr. Rowson this morning and made an inspection of the building. They later met at the city clerk's office and looked over the original plans of the building and the changes that had been made in them. They were satisfied with the building and Chairman Lowell stated that he was satisfied the council would accept it at its meeting this evening.

The Cost So far the city has paid James Rowson & Son \$50,000 on the building and there is still about six thousand due them. A. W. Rush of E. A. Rush & Co., architects, has been paid \$2,170, and has several hundred dollars due him, so that by the time that the city hall is completed and furnished it will cost, including the lot, about \$75,000.

Is Worth Price There is no doubt but what the city has got its money's worth in the building. Many people, who are competent to judge say that it is as fine a building for the money as was ever erected, and that Mr. Rowson has fulfilled his contract.

ry the state this fall they lost it when they nominated Rose. He is not the kind of a man to draw "conservative" votes.

**Milwaukee Free Press:** When Mayor Rose solemnly promised that, if elected mayor, he would not be a candidate for governor, he merely broke one more promise.

**Fond du Lac Reporter:** As this is the month of "R's" it is time for the summer girl to refuse the offer of ice cream soda, and prepare her young men for oyster suppers.

**La Crosse Chronicle:** The fact that the democratic convention adjourned rather than pass a resolution endorsing William Jennings Bryan will not make a safe citizen out of David Rose.

**La Crosse Republican and Leader:** Rose threatens to storm the state in the forthcoming campaign. He is all "bluff" and "wind" and the people have long ago classed him where he belongs. He will never be governor of Wisconsin that is certain. La Follette will be elected by 100,000 majority.

**Oshkosh Northwestern:** A New York paper urges the compilation of a dictionary of American "cuss" words. Luckily the attempt will not be made until after the close of the political campaigns this year, which may have the effect of suggestive remarks of the character mentioned.

**Madison Democrat:** The Milwaukee Free Press is still anti-Spooner—that is, Spooner unconditionally. It says the republican party is "entitled at this time, or a least some

time in the near future, to know if it continues in its kneeling attitude until the legislature meets in January and has time to elect Mr. Spooner, whether he will then accept the proffer." "Kneeling attitude" is good.

**Evening Wisconsin:** The saying that the automobile has come to stay will not be verified until the amateurs and professional chauffeurs become more careful. Just now, instead of staying, the automobiles are going—into kindling and junk—and taking some of the reckless owners and their victims with them.

**Eau Claire Leader:** The Milwaukee platform says that the democratic party has always been a friend of honest taxation. This is always a standard plank in all platforms for it reads well in print. The republican party now in power in Wisconsin was the first to put it in force. Every man is now assessed for what he actually possesses.

**Fond du Lac Reporter:** Governor La Follette has been advised by several of his newspaper friends to hurry up if he intends to engage another \$55 per day special train with which to campaign the state—as the railroad's may not be inclined to grant the request later in the season. Other papers say there is no hurry, for should the railroad decline to make a rate, the Honorable Ike Stephenson would put up the money, for a special train with just as good grace as he has fed the newspapers.

**Eau Claire Telegram:** It is a mistake to attribute all the Spooner movement to a desire to secure republican members of the legislature who will tie the governor up in a double bow knot. The main force of the Spooner sentiment arises from the eminently reasonable proposition of retaining in the senate a man valuable to the state and the country. A good man should hold his job until a better man applies for it.

**Eau Claire Telegram:** There is nothing about the democratic party in Wisconsin in this campaign which renders it any more attractive to the average citizen than it ever was, and in some respects it is less so. Wisconsin democrats never had much on which to base a campaign but the alleged faults of republicans, and most of that material has been imaginary. This year it can truly be said of the democracy that its candidate for governor is a political adventurer. Its platform a flop, and its campaign hot air.

**Whitewater Register:** David Rose said that if he got the nomination of the democrats for governor he would get a special car and talk in every town in the state. La Follette intends to conduct his campaign in the same manner. The patient "busted" or any other citizen who shall attempt to gather from their remarks a compatible idea of what is right and wrong in the present situation, and what should be done in the future, will either end by voting for Carrie Nation or by becoming a candidate for a padded suite in the state's free hostelry at Mendota.

## FOREST FIRES ON THE COAST

## FAMILY IS BURNED TO DEATH

Charred Remains of Husband, Wife and Two Children Are Found Where They Had Been Camping in the Woods.

Kalama, Wash., Sept. 15.—The forest fires, which have been raging on the Lewis river, have wrought great havoc, and about thirty lives have been lost. D. L. Wallace, with his wife and two children, were burned to death while camping in the woods. Their wagon was found burned up, the charred bodies lying near. A 12 year-old boy of Mr. Hanley is also dead. Mrs. John Polly and baby, and a brother, name unknown, and Mr. Newhouse and Mrs. Graves are dead. Fifteen others were found without clothing, except gunnysacks.

**Families Lose All.**

Five logging camps are burned out completely. The following families have lost everything: Eliza Street, O. S. Curtis, L. M. Child, Thomas Matthews, T. Wilkerson, H. E. Dart, land, Dr. Ellis and others. The worst of the fire is on Lewis river, about 12 miles above Woodland. The country is well settled, and there are doubtless other casualties not yet reported.

The fire has spread from Lewis river north to the Kalama river, and fifty sections of the finest timber on the coast has been destroyed. It is impossible to give any estimate of the amount of the damage done to property. Oak Point, twenty miles below here on the Columbia river, is totally destroyed. The loss to property is estimated at about \$300,000.

**Fifteen Perish.**

A great fire is also raging on the Cowman, in the northern part of the country. Everything combustible in its path was consumed. The air is thick with smoke and falling ashes. Hill's camp is reported destroyed. Muckley Brothers' No. 2 camp is also burned out; Morand's camp is badly damaged. Seven donkey engines are ruined. Two men from Barr's camp are reported missing, people are panic-stricken, and many are almost crazed with grief over loss of property. Cowell county thought it was going to escape until the reports came thick and fast, each worse than the last. Five people are dead and two missing, with only partial reports from the burned district. There are only two homes left standing on Lewis river from Trail's place to the head of the river, a distance of thirty miles, and not less than fifteen persons have perished.

**NEELY SEEKS TO SECURE \$6,000**

**Gues War Department for Return of Money Taken From Him.**

Washington, Sept. 15.—Information has been received at the war department that C. F. W. Neely has instituted proceedings in New York to recover the \$6,000 which was found upon him at the time of his arrest in Cuba. This money, which is now at the war department, will not be given up except by a decree of the court deciding into whose possession it should be given. It is understood that the Cuban government has given an indication that the money should be turned over to its treasury to compensate it for the loss through Neely, but the pardon of Neely raises the interesting question whether or not that government has not forfeited all claim against Neely or the money found in his possession when he was originally arrested.

## RESCUES MOTHER AND CHILD

George Van Cleef Saves Two From the Waves at Bath Beach.

New York, Sept. 15.—At the risk of his life and with all his clothes on, even to his hat, George Van Cleef, crack swimmer and champion water polo player of the Knickerbocker Athletic club of Manhattan, jumped overboard at Bath Beach and saved the lives of Mrs. Annie V. Austin and her 7-year-old daughter May, who had been upset in a rowboat.

### CANINES AND FELINES CARRY SMALLPOX GERMS

Cleveland Health Officer Contends  
Dogs and Cats Spread the Disease  
and Orders Their Slaughter.

Cleveland, Sept. 15.—Health Officer Friedrich has issued an order which means death to hundreds of cats and dogs in the city. The doctor insists that in all families where smallpox is discovered and where there is a dog or a cat the animal must be killed. "Dogs and cats are the means of spreading the disease to a considerable extent in this city, I believe," declared the health officer. "It may seem cruel to take their lives, but for the safety of human beings I think it entirely wise to follow out that method."

Dr. Friedrich has contended for some time that cats and dogs are the worst distributors of the smallpox germs that can be found. The hair of either animal may be filled with the germs, he says, and then a child may play with the pet. The result is another new case of smallpox. If the dog is permitted to run at large the danger is more than doubled.

Mrs. Thomas Elletson of Viroqua, Wis., who has been visiting in this city for the past month, a guest at the home of her daughter, Mrs. A. L. McIntosh, returns to her home this evening. Mrs. McIntosh will accompany her for a few weeks' visit.
